Pengawetan Bambu

*bamboo drying
 after being treated
 with borates against
 powder-post beetles*

All of the bamboo used in our furniture and hand-crafts have been treated with borate salts using the Vertical Soak Diffusion Method. To learn more about this method see the Environmental Bamboo Foundation Web site: www.bamboocentral.org

Setiap bambu yang digunakan untuk membuat muebel dan kerajinan tangan telah diawetkan dengan garam borate sesuai dengan syarat dalam metode "Vertical Soak Diffusion." Untuk belajar tentang pengawetan bambu silahkan lihat Web site Yayasan Bambu Lestari: www.bamboocentral.org
